

# here's the secure way we shred documents:

**1** All documents are transported in locked containers in a secure box truck

**2** Documents are shredded to a 1/2" strip cut then baled

**3** All bales are transported to a paper mill for recycling (within the United States)

**4** All processes and security are ensured  
We have earned AAA NAID Certification and ISO 9001.2008  
(visit [www.naidonline.com](http://www.naidonline.com) and [www.NSF/ISO.com](http://www.NSF/ISO.com) for more information)
